

## Complete Portable Hydraulic Filter Cart System

### Portable Filter Cart

Item #FILTER CART FAB  
10 gpm max  
37.9L/ min

**NOTE:** The 80/20 Frame is easily removed from the two wheeled version to create a stand alone Kidney Loop System. This stand alone system includes four (4) 5/16-18 Tee Nuts and Bolts. The features and benefits listed above are included, less the Drip Pan and the Two Wheeled Hand Cart. Both hose ends come with 37° female swivel connections for easy attachment to an external reservoir if desired.

## Features and Benefits

- 1 HP 120 volt electric motor
- Overload protected motor Starter Switch Assembly
- 15' heavy duty cord with 120 volt male plug adaptor
